Director of Public Works

### **LOS ANGELES COUNTY WATERWORKS DISTRICT NO. 29, MALIBU EMERGENCY REPAIR OF A 12-INCH-DIAMETER WATER MAIN SOUTH MAINTENANCE AREA**

On July 1, 2008, your Board approved contracts with five firms to provide as-needed, on-call emergency repair services for the Los Angeles County Waterworks Districts. As part of the approval, we committed to informing your Board whenever work is performed under one of these contracts.

On February 11, 2011, a leak occurred in a 12-inch-diameter water main at 27045 Pacific Coast Highway in Malibu. Williams Pipeline Contractors, Inc., one of the five firms contracted to provide emergency repair services, was called to assist the Los Angeles County Waterworks District No. 29, Malibu, in repairing the leak. We completed the repair work on February 12, 2011, at an estimated cost of \$60,000.

If you have any questions, please call me or your staff may contact Diego Cadena at (626) 458-4008.
